## LEADERSHIP

MOPS - SMCC SOUTH JORDAN

*DGL - Table Leader*

I have been attending this amazing group for mothers since 2015 and actively volunteering on the Steering Team since 2017.

I'm currently serving as a Discussion Group Leader to a table of 9 out of about 50 awesome moms of preschool-aged children.

As a DGL my main role is to provide an enjoyable and supportive environment for women who feel isolated by motherhood, to form bonds and discover that they're not alone in their struggles.

## PROFESSIONAL STATEMENT

Two of my biggest passions are graphics, and the design and development of the web. I find few things as gratifying as the mingling of art and technology.

My main objective is to grow as a professional and a business owner, as well as to perpetually expand my skills in Front End Development.

I am currently looking for remote junior front end development and graphic design opportunities, on a part/full time, and/or contract basis.

## EXPERIENCE

PROMETHEAN ENTERPRISES, LLC

*Founder | Designer*

As a family, we created this company to transform our long-time passion projects, into our dream professions. I currently play the lead administrative role, as well as providing services as a graphic artist, web designer, and front-end coder.

*Previous Corporate Support Roles*

Long before I set out to pursue my passions, I held several corporate support roles over the course of nearly 20 years. I learned a lot about business administration over this time, which I apply today to the running of my own business.
